We hope that this guide enables you the producer to more easily locate forage production resources for your farm or ranch. This is our first attempt at compiling these resources and is a work in progress.

The Farm & Forage Resource Guide is not intended to be a recommendation or endorsement by University of Florida IFAS Extension. The list does not include every product available from each company.

If you have any additional contacts that are not contained in this guide, please let us know so that we can share it with other Florida producers.

In the future we will have this guide posted on our website at: http://nfbfg.ifas.ufl.edu/index.html.
